Join us in Edinburgh this autumn for the Seven Hills Challenge and help raise funds for lung health.

Run or speed walk the 24k route in and around Scotland’s stunning capital, ascending its seven hills - from the imposing Castle Rock to the dramatic crags of Arthur’s Seat.

**WHAT**

A 24k circular route of Edinburgh, including ascent of its seven hills

**WHY**

The Union has been working for almost 100 years to prevent and cure lung disease amongst the world’s most vulnerable populations. We fight tuberculosis, asthma, HIV and tobacco use in 89 countries. How?

**KNOW**

We publish ground-breaking scientific research. We are now testing a new drugs programme to reduce TB treatment time from 24 months to 6 months.

**SHARE**

We support governments to improve health policies. In 2014 3.2 billion people were protected by smoking bans we helped introduce.

**ACT**

We provide health services to some of the world’s poorest populations. In 2014 we delivered antiretroviral therapy to 21,000 people with HIV.

Our work positively impacts the health of millions. Join us in the fight against lung disease!
